

CORPORATE SUFI ADVANTAGE

Welcome to Corporate Sufi, where we'll introduce you to a philosophy that goes beyond what you've heard before - where our mission is to inspire leaders at all levels to achieve material success, but to blend this with a deep sense of purpose, passion and happiness.

Corporate Sufi

So Why the Name?

It's to capture our unique approach. The word "Corporate" represents the drive to excel in business, profession or career. And "Sufi" represents a thousand-year tradition of spiritual abundance. Together, they have immense power, and when you combine them you experience what we call the synergy of Business, Balance & Beyond - in other words, you become successful in a deeply satisfying way.

Does Corporate Sufi Work?

Absolutely. Our approach has been praised by leading thinkers such as Ken Blanchard, Seth Godin, Brian Tracy, Wayne Dyer, Deepak Chopra, Jack Canfield and Robin Sharma, along with corporate executives across the world, and the Young Presidents' and World Presidents' Organizations. The good news is that it is not, in itself, difficult to put the Corporate Sufi approach into practice, though it does take a genuine desire to change.
