

WHAT IS CORPORATE SUFI?

“Corporate” is short-hand for the Western drive for material success. “Sufi” is a metaphor for the Eastern idea of spiritual abundance. When combined, they describe a person who achieves both, and becomes truly rich in a deeply satisfying way. Corporate Sufi thus creates the harmony of Business, Balance & Beyond.

DOES CORPORATE SUFI WORK?

Absolutely. Azim's approach has been praised by Young President and World President organizations, along with corporate executives across the world and leading thinkers such as Ken Blanchard, Seth Godin, Brian Tracy, Wayne Dyer, Deepak Chopra, Jack Canfield and Robin Sharma. And the good news is that it is not, in itself, difficult to put this into practice, though it does take a genuine desire to change.
